

LED Tubes

The Zeta LED Tube range are replacements for traditional Fluorescents that consume large amounts of electricity. Zeta offer a range of sizes, colours and styles to suit all personal preferences and requirements. An energy saving fitting that reduces consumption, carbon and electricity bills.

Performance

- 120° beam angle
- Low wattage,
- 50,000 hour minimal degradation

Advantages

- Reduction In energy consumption
- LED maintenance free for 8 years (6,000 hour yearly usage)
- ECA and Salix funding opportunities

Features

- 50,000 hour lifetime
- LED energy saving replacement
- Healthy and environmental – no mercury or UV

The ZETA LED Tube Range

- 8W–22W power consumption to replace fluorescent tubing
- Available in cool white and warm white
- Replacement solution

Specification

Power	8W	18W	22W
Size	2ft/600mm x 26mm	4ft/1200mm x 26mm	5ft/1500mm x 26mm
Colour and Temperature	Cool White (4500k–4000k) Warm White (3500k–3000k)		
LED	144 pcs	288 pcs	360 pcs
Lumens	650	1300	1650
Voltage	AC220V/AC110V		
Life Span	50,000 hours		
Shell	Aluminium body/PC shell		
Working Temperature	-20°C – 50°C		
PF	0.85
